21 September 1970

MEMORANDUM FOR: Director of Training

SUBJECT: Weekly Activities Report No. 38
14 - 18 September 1970

1. Two OC Electronic Technicians will attend a three-week orientation and laboratory course in instrumented TEMPEST testing techniques and procedures beginning 7 October. The course is given by the Naval Electronic Systems Command here in the Washington area.

2. We have been able to fill the third of three spaces offered us by the Department of Defense Computer Institute (DODCI) for the two-week Intermediate Executive Course. [REDACTED] GS-14, DDP/FI, is the nominee for the 21 September running.

3. National War College students are off on the first of a series of TDY field trips. Starting 22 September they will go to Ft. Bragg, North Carolina, and Cape Kennedy, Florida. Later this month they will go to the United Nations.

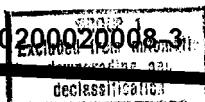

4. For our one slot in NSA's National Senior Cryptologic Course, 19 October - 18 December, we have nominated [REDACTED] [REDACTED] GS-16. [REDACTED] an Operations Officer, is [REDACTED] attendance at this course.

5. The Director of OSP, [REDACTED] has been nominated for the next Review Seminar on Business Policy, being conducted locally by the Brookings Institution in November.

7. , O/DDP, has just returned from Stanford University, where he attended the Stanford Executive Program. He attended as an overt CIA employee. This is one of the "new" pilot external management/executive development programs, which the Training Selection Board is utilizing this year. Other recent returnees are  O/DDP, who attended Columbia's Executive Program in Business Administration;  OS, and  OP, Cornell's Executive Development Program; a , OF, Penn State's Executive Management Program.

Mr.  is highly enthusiastic about the Stanford course. It was well run and he believes we should continue to send people, although he has some reservations regarding CS participation in such courses, since they are so highly geared to management in the business world.  has nothing but high praise for the course he attended at Penn State and feels it has direct applicability to SF careerists and others in the procurement/contracting/auditing field.

8. The breakdown in communication on the ban of commercial air travel on Friday, 11 September, resulted in three employees (OBTI) being canceled from the CIRADS program being held in El Paso, Texas, this week. The employees concerned had been trying since last February to get into this program. Originally, the course was scheduled for 19 May in Columbus, Ohio, but was canceled because of the Kent State incident. One of six students for Sandia did not go.

9. 376 requests have been recorded for part-time academic sponsorship, and we are still processing requests.

11. [REDACTED] NSA Training Liaison Officer, called [REDACTED] in AIR and said he had been asked by someone in NSA's Office of Training to make an informal inquiry as to whether CIA had a "Board of Distinguished Visitors" from universities or private industry, to look over our training program, see what direction our training was going, and make suggestions to improve it. Someone in NSA was considering the idea, and wanted to know what we did. Anne told him we did not for obvious reasons.

12. On Tuesday, 15 September, [REDACTED] 25X1A9a presented a demonstration in Glebe Building of a teaching machine made by MODEC, Inc. of Milwaukee. Five persons from OTR and two from TSD attended. The machine can be used to present programmed instruction in a linear or a branching format. The TSD representatives felt that the machine could be used for some of their training and [REDACTED] will follow up 25X1A9a with them on the possibility of its use on a trial basis.

25X1A9a 13. [REDACTED] met with FMSAC officials after hearing the FMSAC presentation in the Midcareer Course. FMSAC decided to ask [REDACTED] to write a treatment for a film. This will take about three weeks beginning 1 October and will cost about \$1,500. FMSAC will pay for this preliminary work and then decide whether to proceed with the film.

25X1A9a

14. [REDACTED] is on TDY in South Dakota for three to four days doing some filming at the request and expense of ORD.

25X1A9a 15. The DIS Information Science in Support of Intelligence Functions Course is scheduled to run again on 5 October. We have been in daily contact with [REDACTED] Chairman, Information Processing Board on the enrollment status. As of this date we have three nominees: [REDACTED] GS-14, OSP;

won't fill our quota. The sudden surge of interest in this course stemmed from a memorandum sent out by the Executive Director a week ago directing that the quota of five be filled.
